SUMMARY

Full Stack Developer with 3+ years of experience designing, developing, and deploying scalable SaaS and enterprise web applications using React, Next.js, TypeScript, Go (Fiber), Django, and PostgreSQL. Experienced in building secure REST APIs, authentication and authorization systems, database architecture, cloud deployment, and performance optimization. Proven ability to deliver end-to-end solutions across frontend, backend, and DevOps while collaborating in Agile teams. Proficient in AI-assisted software development using Cursor, Claude, GitHub Copilot, ChatGPT, and OpenAI Codex to accelerate development, improve code quality, and streamline software delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, TanStack Query, HTML5, CSS3, Tailwind CSS, Bootstrap, Context API, Framer Motion, Others Styles Libraries.

Backend: Go (Fiber), Node.js, Express.js, Django, REST APIs, JWT, OAuth

Database & ORM: PostgreSQL, (PgAdmin) MySQL, MongoDB, Mongoose, Redis

AI-Augmented Development: Cursor, Claude, GitHub Copilot, ChatGPT, OpenAI Codex, Prompt Engineering, AI-Assisted Debugging, AI-Powered Code Review, Code Refactoring

DevOps & Tools: Git, Docker, GitHub Actions, Postman, Firebase, Vercel, Netlify, Heroku, Linux, Figma

Familiar With: GraphQL, Socket.IO, Kafka, CI/CD Pipelines, Cloud Deployment

KEY ACHIEVEMENTS

- Built and deployed multiple production-ready full-stack web applications.
- Developed secure JWT authentication and RBAC systems using Go Fiber and Django.
- Designed scalable REST APIs and PostgreSQL database architectures.
- Delivered enterprise software for Bangladesh Post Office.
- Leveraged AI-assisted development tools to improve productivity and code quality.

EXPERIENCE

Software Engineer | *Smart Think*

Mar 2024 – Present

- Developed and maintained scalable web applications using Next.js, Go (Fiber), Django, and PostgreSQL.
- Designed and implemented secure JWT-based authentication and role-based access control (RBAC) for enterprise applications.
- Built RESTful APIs and optimized PostgreSQL queries, improving application performance and maintainability.
- Delivered enterprise-grade solutions, including a Booking Management System for Bangladesh Post Office.
- Collaborated with cross-functional teams in Agile environments to deliver production-ready software.

Frontend Developer | *Achieve It Ltd*

Jan 2023 – Sep 2023

- Developed responsive React applications using Next.js and TypeScript.
- Built reusable UI components, reducing duplicate code and improving maintainability.
- Integrated REST APIs, authentication workflows, and state management with Redux and TanStack Query.
- Worked closely with designers and backend developers to deliver responsive, user-friendly interfaces.

Software Developer Intern | *Monster Claw LLC*

Apr 2022 – Oct 2022

- Developed responsive web applications using React.js, JavaScript, HTML, CSS, and Bootstrap.
- Assisted in backend development using Node.js/Express.js and worked with MySQL/MongoDB databases.
- Built and integrated RESTful APIs while debugging and resolving application issues.
- Assisted with application deployment and hosting, ensuring smooth development and testing workflows.
- Collaborated directly with clients and senior developers to gather requirements and deliver software features.

PROJECTS

Homely Stay | *Property Rental Service*

[Live Link](#)

A full-stack Airbnb-style property booking platform where users can discover, book, and manage accommodations. Features include JWT authentication, role-based access control (Admin, Host, User), property management, booking system, reviews, responsive UI, and a Go Fiber REST API with PostgreSQL.

[Client Code](#)

[Server Code](#)

Bazar Hub | *E-Commerce Platform*

[Live Link](#)

Developed a modern e-commerce platform featuring authentication, shopping cart, Wishlist, product reviews, payment integration, search functionality, and role-based dashboards. Tech Stack: Next.js, Redux, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS.

[Client Code](#)

[Server Code](#)

Booking Management System | *Bangladesh Post Office*

[Live Link](#)

Developed an enterprise-grade parcel booking and shipment management platform supporting SSO authentication, domestic and international shipment processing, parcel tracking, and automated booking workflows. Tech Stack: Next.js, TypeScript, Django, PostgreSQL, React Query

[GitHub Code](#)

EDUCATION

Daffodil International University

B.Sc. in Computer Science & Engineering (CSE), CGPA: **3.50 / 4.00**

2018 – 2022

CERTIFICATIONS

- Hacker Rank JavaScript (Basic)
- Programming Hero Web Development Course (Batch 5) Creative IT Institute Ambassador Program
- ICPC Dhaka Regional Participant

SOFT SKILLS

Communication • Team Collaboration • Leadership • Problem Solving • Critical Thinking • Time Management • Project Management • Adaptability • Continuous Learning

LANGUAGES

Bengali: Native English: Professional Working Proficiency
